Summer term timetable Expectations:

The timetable for Year 11 basically runs as normal up to 15 June apart from a very few exceptions as detailed in the table above.

When **not** in an examination students should be in their **normal timetabled lessons**. They should organise themselves to bring suitable revision of other subjects if the lesson attended has completed its examinations – as detailed above. Please note there are whole or large cohort examinations in all but Year 11 Option subjects running up until this time.

If students do not have their own revision of other subjects there is a central area of resources for some subject and teachers will access these resources to complete revision in those lessons and students will be expected to complete this revision.

Students must COMPLETE this revision in their TIMETABLED ROOM WITH THEIR TIMETABLED TEACHER.

The HUB will not be used to do revision in lesson time.

Basic Examination Expectations:

Student will have examinations either in morning or afternoon sessions. **Morning session** examinations start at **0900** and **afternoon sessions start at 1330**.

They should arrive to school at least at normal time to **register with their form tutor**. Students will be sent to the examination hall in good time and should:

- Check their **seat location** on the lists placed outside the sports hall before lining up
- Students will be asked to line up quickly and in silence in form classes outside the sports hall on the grassed area. They should listen and adhere to any instruction given before entering the sports hall examination area via the changing rooms.
- Students should leave all their belonging other than relevant examination materials in their bags in the changing rooms.
- Students should do so, quickly and quietly without disruption and then enter the examination hall **in silence**
- **Once in the examination hall they are under examination conditions – no talking or communication of any sort** as this could lead to a breach of examination regulations and disqualification from the examination being sat.
- Students should:
 - **BE IN SCHOOL UNIFORM** – non-adherence to this jeopardises sitting the examination and students may be removed, returned home or asked to change into provided uniform
 - Leave **mobile phones, smart watches** AND also **normal watches** in their bag in the changing rooms
 - Leave calculator lids in their bags if a calculator is required
 - Have a clear plastic pencil case with their equipment – **BLACK PEN ONLY**, pencils, mathematical equipment e.g. ruler, compasses if required
 - Ensure if taking in a bottle of water that it has **NO LABELS** attached to it – a bottle of water is allowed and advised during the examination
 - **Listen to and follow any invigilator instructions immediately and to the letter.**
- **When examinations finish**, students will be dismissed in silence (to avoid disruption to exams still being sat) to collect belongings from the changing rooms and to return to lesson or be supervised near the dining hall if just before break by their Period 2 teachers or dismissed from site if an afternoon examination finishes before the end of the school day at 1500.

Before morning examinations:

The Dining Hall (and if required rooms on 1st floor of East block) will be available for students to come in and settle and revise from 0715 with Ms Hurley.

Faculty staff will be available in the dining hall from approximately 0800 for those exams that day to answer questions and support with last minute revision if required.

Students may come and work and revise quietly, get some refreshments and settle themselves before registration where they will get their attendance mark.

Students should attend registration to get their mark and quietly make their way to the examination hall when instructed to or escorted by their tutor as per the requested time.

Students should follow all instructions to line up calmly and use the time effectively before admission to the examination.

Before afternoon examinations:

The lunch break time has been deliberately moved to between Periods 3 and Period 4 and will run from 1220 to 1300.

Students having an afternoon examination do not need to go to their period 4 lesson when dismissed from lunch – they should make their way to the sports hall **to calmly wait** for admission into the examination and **check their seating plan** and do any last minute revision. If possible, subject teachers will be on hand to help answer last minute queries and settle examination nerves.

Students should follow all instructions to line up calmly and use the time effectively before admission to the examination.

After school Revision timetable:

The usual afterschool revision timetable still exists and will run until the completion of the examination season as required.
